

BOOK BUCKET LIST

*By the end of the year you need to complete your book bucket list. These books can count toward your free reading project.

*You will have read ten books by the end of the year. This will count for a project grade.

*Each of the books must be a minimum of 100 pages.

*A book may only count for one category. All books must be parent and teacher approved.

*It may help to choose the books that you want to read at the beginning of the year, and then complete that list that you compiled, but you may also choose your books as the year progresses.

*Write down the number of pages in the first blank and the title of the book in the second blank of each category that you complete.

*Each extra book that you read (after the required ten books for the project) equals one point of extra credit on one of your finals at the end of the year. (You may only earn up to ten points.) Remember that once a category has been completed you may not get credit for another book in that category. After you have read your ten required books, you may choose up to ten new categories to get your extra credit.
